CLEAR-RIDE™

ARENA DUST SUPPRESSANT

www.EquestrianServicesIntl.com

THE CLEAR-RIDE™ SOLUTION

Clear-Ride provides a safe, non-toxic, organic solution for arena dust control. Clear-Ride is a clear liquid that is applied to existing arena footings, providing dust control that lasts up to one year per application. Clear-Ride completely eliminates the need for watering your arena. Riders, horses, arenas, clothing, tack and surrounding areas all remain dust-free.

FEATURES

- Safe for humans & livestock
- Greatly reduces health risks in animals & humans
- Chloride-Free
- Not sticky or Slippery
- Will not freeze or wash away with rain

USES

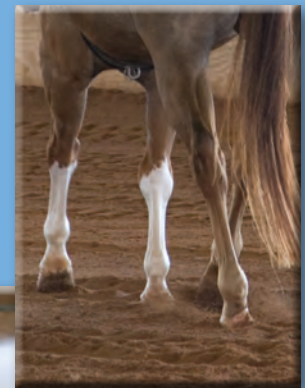

- Indoor & Outdoor Riding Arenas
- Show Grounds
- Round Pens & Walkers
- Parking Areas & Roadways
- And More

APPLICATION

Clear-Ride can be applied by any equipment capable of spraying water. It will not contaminate water-spraying equipment.

Simply spray and allow material to soak in. For best results apply in two separate applications, grooming footing between first and second spray application.

The initial application of Clear-Ride will last up to one year. An annual touch-up of about 30% of the original application is all that is needed to provide continued dust control throughout the life of the footings.

PROVIDES A
SAFER, CLEANER
ENVIRONMENT FOR
HORSE & RIDER

COVERAGE

Footing Depth	Clear-Ride Coverage Rate
One inch	36 sq. ft. per gallon
Two inches	18 sq. ft. per gallon
Three inches	12 sq. ft. per gallon

Footing Depth	Clear-Ride Coverage Rate
Four inches	9 sq. ft per gallon
Five inches	7.2 sq. ft. per gallon
Six inches	6 sq. ft. per gallon

The above rates are typical. Some footings may require more Clear-Ride to achieve desired results.

NOTE

For Arena applications, Clear-Ride is not recommended for arena floors consisting of tilled up or existing dirt. It is designed primarily for arenas that have been engineered with a firm compacted base and a separate footing layer consisting of sand, sand/clay blends, sand/rubber blends, stone dust, and other engineered footings.
